Product Description

Size: 27" QHD | Style: BenQ

The XL2730Z gives you the finest, smoothest and fastest display performance for competitive gameplay. Fast response time of 1ms GtG means speed without the smear for an enhanced gaming experience. Fast-moving action and dramatic transitions will be rendered smoothly without the annoying effects of smearing or ghosting. BenQ's new Motion Blur Reduction technology further enhances an ultra-smooth, blur-free gaming experience. It is absolutely vital that the XL2730Z give you the flexibility you need to get the color performance you seek. This is why BenQ built into the monitor 20 levels of Color Vibrancy setting to meet gamers' specific viewing requirements and preferences for all types of gameplay. The newly improved Black Equalizer Dynamic color engine technology takes visibility optimization to a whole new level with automatic brightness adjustments. The XL2730Z is able to detect the input source and automatically fine-tune the amount of brightness enhancement within the range of the brightness level selected by the user. The adjustable height stand is now scaled with 14 height levels movable by a moving mouse. The G-Switch Air is an external controller that comes with preset buttons that can be customized with personal display settings for gaming, work or entertainment use. The Auto Game Mode enables the XL2730Z to detect the genre of the game being played and switch the display setting to the corresponding game mode automatically. They can also share their own game modes with everyone via cloud storage or social media platforms. This innovative feature allows gaming communities to share, collaborate and bond freely with ease.
